QUEEN ELIZABETH OLYMPIC PARK

Future Gardeners
Green Horticulture Skills Training

Green Flag Awards celebration with Horticultural Apprentices and Trainees on Queen Elizabeth Olympic Park.

Join us for a great opportunity to develop your skills in horticulture, gardening, green infrastructure and landscape maintenance.

Are you interested in the natural world that surrounds us, its trees, plants and its biodiversity? If so, come and join an exciting 6-week Future Gardeners Green Horticulture Skills training course based at Queen Elizabeth Olympic Park's Build East training centre.

Caring for parks and greenspaces in a busy urban environment is important for local communities, supporting nature positive, fighting climate change and making the places we live sustainable and healthy. In completing the course, you will gain a formal qualification as well as the knowledge and training you will need to find a job in horticulture or landscape management.
This is a Future Gardeners programme delivered by Bankside Open Spaces Trust in partnership with Build East and *id*verde and is fully funded for all eligible participants.

- The training course is based on Bankside Open Spaces Trust's innovative Future Gardeners programme which includes work experience that gives the participants the core skills to gain entry level jobs in the horticulture industry. You don't need previous experience or specialist education.

- It is open to people living in the boroughs of Newham and Tower Hamlets. As well as pre-apprenticeship training and a City & Guilds qualification, the budding horticulturists will have their career options enhanced by being introduced to key employers in the sector.
